## DAY PROGRAM CLOSURES

Based on information provided by the Centers for Disease Control and directives from the Texas Health and Human Services Commission, all Community Access owned, and operated day programs will be closed effective Wednesday, March 17, 2020. Closures will be in line with the same time frames as school closures. When schools re-open the day programs will also. If schools have not re-opened by the end of the school year the status of the day programs will be re-evaluated according the HHSC directives. Additional information will be provided as we receive it.

Consumers living in residential settings of 4 or more may be involved in group activities not to exceed 10 individuals, including staff.

This action is being taken in an abundance of caution to reduce the risk of exposure to the virus. We will continue to provide the safest conditions for your loved ones.

If you have any questions, please contact the Consumer Services Manager for your loved one. If needed you may obtain their contact information by calling the main office for your region.

Laura Redman, CEO
